

# Case study

## One Castlepark

---

### PROJECT LOCATION

Bristol

---

### PROJECT TYPE

Reception  
& Lift Lobby  
Works in  
Occupied  
Building

At One Castle Park, we completely stripped out the existing reception area whilst the 7 storey building remained in occupation. We then installed all new M&E services and flooring.

A bespoke reception desk was installed along with a striking bespoke moss and wood feature wall. Custom carpentry including bespoke banquette seating and slatted roof rafts were also completed along with full decorations and finishes throughout.

Timber slat cladding was added to 7 lift lobbies and exterior works included concrete slab paving, hand rails and custom planting.
